MyLab[™]Seven

Esaote introduces MyLab[™] Seven, the new ultrasound system designed around Esaote's innovative new Productivity-Oriented Platform (POP).

MyLabSeven is an innovative ultrasound system able to deliver high-class performance and compact size.

The wide 16:10 LCD monitor and large sized high-definition touch-screen reflect the main philosophy of the system: Productivity in Real-time, means better diagnosis in less time.

MyLabSeven also includes built-in wireless access to provide easy and fast data transfer. This leads to an improved user comfort and clinical outcome as well as department throughput and efficiency.

MyLabSeven is the right choice to drive healthcare innovation.

esaote

Ergonomics

- Wide image size
- Articulated monitor arm
- Easy rotation and height adjustment
- Sliding alphanumeric keyboard

Simplicity

MyLab[™]Seven

- Designed for productivity
- 4 probe connectors
- Wide range of transducers (2D, 3D)
- Compact footprint and easy mobility
- Stand-by battery

Stunning Images within reach

improve diagnostic confidence

Your @Touch

A standard ultrasound system becomes a personal application-specific diagnostic tool.

Customized settings and multiple functions can be organized according to clinical practice and preferences and then easily recalled by just pressing a button.

Unparalleled throughput

MyLabSeven™

The intelligent software and the large sized touch-screen allow unique features to be delivered with MyLabSeven. The Productivity-Oriented Platform is the core of the architecture: easy access, personalized settings and functions, standardized clinical protocols and immediate settings.

Custom setup

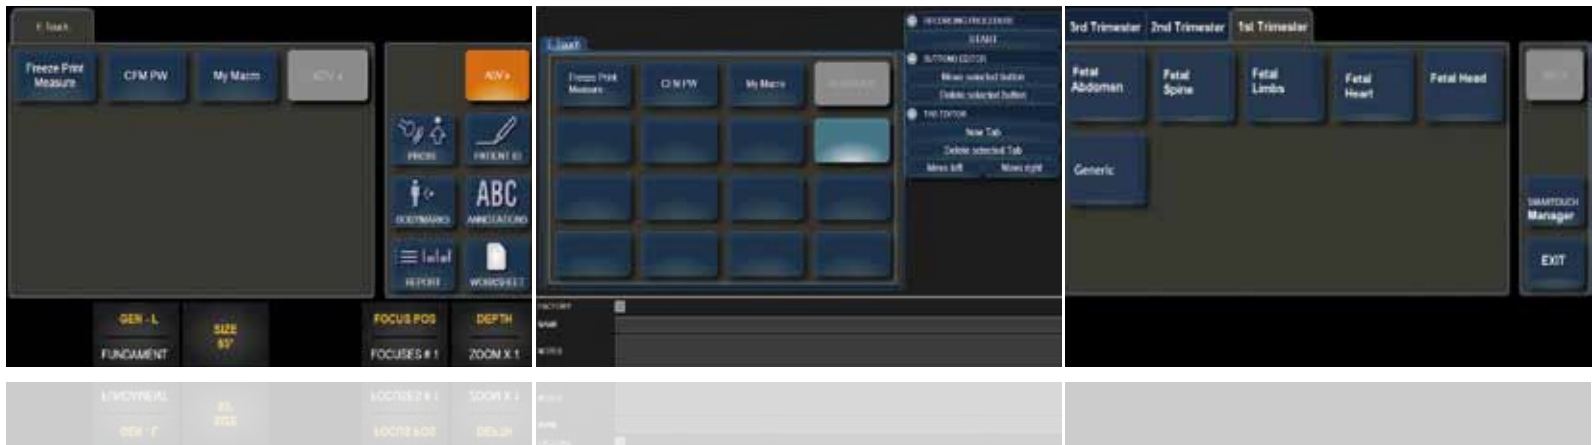

By pressing the **eTouch** button, the user can display the controls and functions that he really needs in clinical practice: improved comfort and reduced examination time.

MyMacro

eTouch dedicated session allows the user to record different macros. Based on any single user's needs and preferences, multiple functions can be included with just one touch: less keystrokes and faster diagnosis.

SmarTouch

Wide ranging image settings, user preferences and clinical targets, normally require time and attention. Smart-touch delivers dedicated settings for any anatomical district. Optimal images are displayed with just one touch.

iQProbes

- Active Matrix Composite Material
- Multiple Adaptive Layers
- Bi-Con Geometric Lens
- Heating Efficiency Control

appleprobe

MyLabSeven offers a wide range of iQ Probes. In addition to convex, linear and phased array, several special probes (such as endocavity, trans-esophageal, intraoperative, volumetric,...) can be connected.

MyLabSeven, thanks to four multi-size connectors, offers the compatibility with different type of probes. Examination can be comfortably performed, with the right tool and without any waste of time.

Wireless Ultrasound

MyLabTMSeven

- Extended export capability to PC (Windows[®], Mac[®]) and mobile devices (tablets, smart-phones, etc ...)
- Easy networking, standard and wireless
- DICOM and IHE compliance
